HOW IT WORKS

Included in our pricing are three design revisions for your personalized pieces. Please note, for corporate stationery, we need a high resolution JPG at least (preferably an AI or a PDF) of your logo in order to be able to include it.

We will e-mail a proof within two business days of your 50% order deposit. In the meantime, browse our envelope colors on the next page to see what you'd like to use. Once we have finalized our design, the remaining 50% will be due and you will approve your order to move into production. Please allow roughly one to two weeks for completion.

## INK COLOR CHART

### custom colors

Use this color chart to let us know what ink(s) you would like to use for your printed pieces.

OR, if you have access to a PMS color chart, feel free to let us know a specific color number and we will get as close to that hue as possible.

### a word on colors

Do keep in mind that colors appear differently on each computer monitor, phone screen, etc. If you have a specific color you want to match, feel free to share a swatch with us in person or via snail mail so we can be sure that the in person products are as close as possible. We would highly suggest requesting or purchase a letterpress proof if the precise color is a concern.

## ENVELOPE LINERS

### patterns + solids

Choose from one of our signature patterns in the ink color of your choice or select a solid from our paper colors. We also carry and can utilize Envelopments envelope liners for even more options.

### custom liners

If you want something personalized with your name or monogram, or perhaps a cityscape even, we can definitely create that for you. Just ask!

If you want to explore more color options, we are happy to price those out for you individually. Just let us know what you're looking for and we will see what's available!
